Name : Roll No.: Class : Subject :

Assignment - 6

Aim :
To study usability testing of the TravelWise tourism and flight booking website.

Theory :
Maze is a remote usability testing tool used to evaluate figma ~~prototype~~ prototype. It analyzes how users navigate the website, search for flights and explore travel options. Metrics such as task completion rate, misclicks, heatmaps and task duration help identify usability issues and improve the overall user experience.

Conclusion :
Thus, usability testing of the TravelWise website prototype using Maze was studied to understand user behaviour and improve the website's usability and user experience.
